Examiner's Amendment and Reasons of Allowance

The Status of Claims

Claims 1-16 are pending.

Claims 1-16 have been allowed.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with an attorney of record, Mr. Jay S. Cinamon on 7/29/2005 .

I. The application has been amended as follows:

In claim 1, line 5 on page 3 (amendment dated on 5/9/05):

The phrase “ -- [a conventional method] --” after the word “ by ” has been deleted.

In claim 4, line 2 on page 3 (amendment dated on 5/9/05):

The phrase “ -- [preferably] --” before the word “ in ” has been deleted.

In claim 5, line 2 on page 3 (amendment dated on 5/9/05):

The phrase “ -- [preferably in the range ]--” before the word “ of ” has been deleted.

In claims 8 and 9, line 2 on page 4 (amendment dated on 5/9/05):

The phrase “ -- [preferably] --” before the word “ in ” has been deleted.

In claims 10-12, line 2 on page 4 (amendment dated on 5/9/05):

The phrase “ --[ preferably in the range]--” before the word “ of ” has been deleted.

II. The following is an examiner's statement of reasons for allowance:

The close reference for the current invention is Takagi Usaji et al (JP 04-077455).

Takagi Usaji et al discloses a process for preparing methyl cinnamate by reacting a styrene, CO ,an alcohol and oxygen in the presence of a catalyst comprising palladium , a complex or hydrate containing copper acetate and manganese acetate at a temperature of 25 to 200<sup>0</sup> C.

The instant invention, however, differs from the prior art in that the claimed cinnamates are prepared by reacting cinnamic acid with an alcohol in the presence of polyaniline catalyst ; therefore, the application of the corresponding catalysts to their processes are completely different to each other.

Therefore, the claimed invention would not have been obvious to the person with an ordinary skill in the art because the claimed process and the prior art process are completely different from each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the communication after allowance such as sending all post-allowance correspondence should be directed to " Box Issue Fee" or faxed directly to PUBS at 703-305-8755. This will expedite the process of these papers.
